

Quality Policy

Preem aims to create long term value for society and our customers through offers that meet the demand for sustainable products, with a focus on superior performance in refining, distribution and sales. We are a quality-conscious fuel company that wants to make the journey to a better future possible.

We achieve this by doing the following in our day-to-day business operations:

- Delivering safely, efficiently and reliably to our customers.
- Developing sustainable renewable fuels in close collaboration with customers, partners and suppliers.
- Continuously optimizes and develops our refineries, in order to produce fuel that meets customers' quality requirements as efficiently as possible and with the least possible impact on the environment and climate.
- Running an effective logistics chain with flexible depot operations that meet both customer and partner fuel demands.
- Continuously improving our working methods, focusing on increasing efficiency in our processes, digital transformation and new technologies to optimize our operations.
- Complying with applicable laws, relevant standards and stakeholder requirements.

It is the management team's responsibility to prepare and implement the policy - it is the responsibility of each one of us to conform to it through continuous improvements in our daily operations.

Preem's success is based on competent and dedicated employees as well as a leadership adapted to an ever-faster pace of change.
